### Hard Skill

- Java
- Critical Thinker
- Persistent
- Front end coding
- Python
- Web development

### Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking

### Education Background

- B Tech in Computer Science and Engineering ,Lovely Professional University  
2022–2026
- DAV Kapil Dev Public School  
*Higher Secondary School in Science*  
Completed in 2021
- St Anthony's School  
*High School*  
Completed in 2019

### About Me

Results-driven Full Stack Developer with expertise in building and maintaining web applications using modern technologies such as JavaScript, Node.js, React, and MongoDB. Proficient in both front-end and back-end development, with strong problem-solving skills and a focus on delivering scalable, high-performance solutions. Experienced in working with RESTful APIs, version control, and deploying applications to cloud platforms. Passionate about writing clean, maintainable code and continuously learning new technologies to drive project success.

### Professional Experience

- Worked on a MERN stack project focused on developing an eCommerce website. The project involved building both the front-end and back-end components using MongoDB, Express.js, React, and Node.js
- worked on the Agro Buddy project, an AI/ML-based platform that helps farmers detect crop diseases by uploading images for analysis and accurate diagnosis and predicts crop prices in future.
- cloned Gemini using its API and developed a custom interface with PHP for seamless integration and functionality.

### Hobbies

- Gaming
- Cooking
- Traveling
- Movies And Web Series

### Certifications

- ChatGPT Advanced Data Analysis, Vanderbilt University
- Server Side JavaScript with Node.js, NIIT
- Generative AI with Large Language Models(AWS, DeepLearningAI)
- Dynamic Programming, Greedy Algorithms(University of Colorado Boulder)
- Build AI Apps with ChatGPT, Dall-E, and GPT-4(Scrimba)

### Achievements

- Developed and deployed a fully functional eCommerce website using the MERN stack, improving user experience.
- Built and integrated an AI/ML-based crop disease detection tool, helping farmers identify issues with 80% accuracy
- Successfully cloned and customized the Gemini platform interface using PHP, enhancing user accessibility and interaction.
